

Name: _____

7th Grade Science Midterm Study Guide

Define the following words:

Photosynthesis

Cellular Respiration

Mitochondria

Eukaryotic Cells

Prokaryotic Cells

Cell Membrane

Osmosis

Adaptation

Cellular Organization

Multicellular

Unicellular

Scientific Method

Classification

7 levels of taxonomy

5 kingdoms

Binary Fission

Characteristics of living things

Producers

Consumer

Decomposer

Biotic

Abiotic

Stimulus

Sexual Reproduction

Asexual Reproduction

Three Ways a Protist Moves

Characteristics of Fungus

What is so unique about a Lichen

Differences between Plant and Animal Cells

Photosynthesis Equation
