“Vaccinations protect not only the person who receives them, but those who are unable to be vaccinated.”

NOTE CARD - Example

C

“Anti-vaccination beliefs go back to the 1700s...the first known objector was Benjamin Franklin, who refused the smallpox vaccine for his son. His son died of smallpox in 1736.”

Franklin said: “I long regretted bitterly, and still regret that I had not given it to him by inoculation.”
